

SHASHANK KUDHA

Backend Developer

Hyderabad, India | +91 6302421538 | shashankkudha51@gmail.com | [LinkedIn](#) | [GitHub](#)

TECHNICAL SKILLS

Languages: Java

Backend: Spring Boot, Spring Security, Spring Cloud, Spring Data JPA, Hibernate, REST APIs

Databases: MySQL, PostgreSQL

Tools & Platforms: Git, GitHub, Docker, Postman

Core Concepts: DSA, OOP, DBMS, API Testing

EXPERIENCE

Large Language Model Fine-Tuning Intern — Ethara AI | Remote

Feb 2026 – Apr 2026

- Evaluated LLM-generated responses across correctness, coherence, relevance, and instruction-following criteria during a 3-month internship.
- Reviewed and analyzed 500+ LLM-generated responses, identifying quality issues and contributing to dataset refinement efforts.
- Applied structured annotation guidelines across 100+ evaluation tasks while maintaining high accuracy and meeting project deadlines.
- Collaborated with a team of 5+ reviewers to resolve feedback and improve consistency in response evaluation workflows.

PROJECTS

Employee Payroll Management System – Backend

Aug 2025 – Oct 2025

Java, Spring Boot, Spring Security, REST APIs, PostgreSQL

[GitHub](#)

- Developed a backend payroll application covering 5+ modules including employee records, salary calculation, payslip generation, payroll history, and department reports.
- Architected REST APIs for 6+ payroll workflows including employee management, salary processing, payslip generation, payroll tracking, and reporting.
- Integrated Spring Security authentication with 2 user roles, BCrypt password encryption, and protected access across 10+ API endpoints.
- Optimized payroll processing workflows for 5+ business modules, reducing manual processing effort and improving data management efficiency.

Bank Management System – Backend

Mar 2025 – May 2025

Java, REST APIs, Java Serialization, SHA-256, PostgreSQL

[GitHub](#)

- Engineered a backend banking application featuring 8+ banking operations, REST APIs, and persistent storage using Java Serialization.
- Automated 8+ banking operations including account creation, deposit, withdrawal, fund transfer, account search, freeze/unfreeze, and mini statement generation.
- Secured customer account information through Java Serialization-based persistence and SHA-256 hashing for PIN protection.
- Designed backend services supporting account validation, transaction processing, and customer information retrieval across 8+ banking workflows.

EDUCATION

Institute of Aeronautical Engineering, Hyderabad

April 2026

B.Tech in Computer Science and Engineering (AI & ML)

GPA: 7.05/10

T.R.R College Of Engineering And Technology, Hyderabad

April 2026

Diploma in Computer Science and Engineering

GPA: 7.0/10

Upcoming PUBLICATIONS

Fraud Detection in Fastag Payments

[Publication Certificate](#) — [Presentation Certificate](#)

CERTIFICATIONS

Salesforce Certification – Salesforce ([Link](#))

Apr 2025

Oracle Certified Foundations Associate – Oracle ([Link](#))

Jun 2025

CODING PROFILE

LeetCode: 70+ Data Structures and Algorithms problems solved

code360: 50+ problems solved
